

JUAN MANUEL FERNÁNDEZ RODRÍGUEZ

Multiplatform Application Development Student

Full Stack Developer (Junior) · SMR Technician

PROFILE

Junior developer from Málaga who likes to understand how things work from the inside and turn everyday problems into working solutions. Technician in systems and networks (SMR), now completing the higher degree in Multiplatform Application Development (DAM), with a strong interest in programming, DevOps, cybersecurity and AI. I have taken part in **three Erasmus+ programmes**, which taught me to collaborate and organise myself in international teams and on my own. Curious, consistent and patient.

WORK EXPERIENCE

Automation Lead

FixMe Málaga · Málaga, Spain

MAR – MAY 2026

- Led the company's automation area.
- Managed and administered the company database.
- Advised the team on software development and programming.
